

The background features a stylized world map with a torn paper effect. The top half, representing the Northern Hemisphere, is a dark blue color. The bottom half, representing the Southern Hemisphere, is a dark green color. A jagged, torn edge separates the two colors. Overlaid on the map is a white grid pattern. In the lower portion of the image, a black silhouette of a city skyline is visible. Below the skyline, a green map section shows a street grid with labels such as 'Belisario St.', 'uradio 15 St. Rucio', and 'St. Republic'.

Showcasing cutting-edge  
research in comparative politics.
