

TYPE OF DISEASE

- | | | | | | | | |
|---|---|--|---|--|--|---|---|
| ● Cancer | ● Connective tissue | ● Cardiovascular | ● Endocrine | ● Gastrointestinal | ● Ear, nose, throat | ● Developmental | ● Multiple types |
| ● Bone | ● Muscular | ● Hematological | ● Immunological | ● Nutritional | ● Ophthalmological | ● Neurological | ● Unclassified |
| ● Skeletal | ● Dermatological | ● Renal | | ● Metabolic | ● Respiratory | ● Psychiatric | |

SCALE

Each circle represents a disease or disorder and is scaled in proportion to the number of genes associated with that disease.
